Bulgaria And Independence

War May Convulse Europe
As a Result of Declara-
tion

Sofia, Oct. 5.—The proclamation of the independence of Bulgaria was read at the Cathedral of Tirovo at 10 o'clock this morning. It was a dramatic scene accompanied by great enthusiasm. A manifesto of independence addressed to the National Assembly was subsequently issued by the prince.

Berlin, Oct. 6.—Austria-Hungary is making two armed corps for instant use, according to news agency dispatches from Bulgaria. Turkey is hurrying troops towards the frontier.

St. Petersburg, Oct. 5.—It is announced with authority today that Russia will propose a congress of the powers for a general revision of the Berlin treaty. This is the outcome of the proclamation of Bulgarian independence. Russia has reason to believe that the annexation of Bosnia and Herzegovina by Austria-Hungary is imminent.

St. Petersburg, Oct. 5.—Count Berchtold, the Austria-Hungarian ambassador to Russia, who has been out of the city on leave of absence, returned today and demand an immediate audience with Emperor Nicholas. It was arranged that he should see the emperor in the hall of Finland. A naval launch had been placed at the disposal of Count Berchtold.

The real gravity of the Bulgarian situation lies in the fact that it like the Moroccan situation, is like the issues which divide the great powers of Europe in the gradual re-forming of France and Great Britain are largely the international alignments. In the present case, the interests of Russia, in common against those of Germany and Austria, with Italy occupying the middle ground. Russia has a most vital interest in Bulgaria owing to the racial conditions, geographical proximity and Black Sea prestige, but Russia has not been entirely free to act with Great Britain, having adverse interests on her Baltic frontier. This has left France and Germany to play the chief part in the Bulgarian readjustment with Russia the silent, but deeply interested spectator and ally. On the other hand Germany has first pushed her influence toward Morocco in the southeast and then toward Turkey, Persia, the Balkans and near East. In the movements Austria has usually been found co-operating with Germany, partly through the bonds of the triple alliance, and partly because of personal interests in the contiguous territory of the Balkans. This in turn has fanned into activity the old animosity between Italy and Austria, threatening to disrupt the triple alliance, and to group Italy with France and Great Britain. This gradual regrouping of the powers has been affected by the recent movements—Turkey's adoption of a constitution, the appearance of the Moroccan issue, and the present independence of Bulgaria, in all of which the new alignment of the powers is becoming manifest with Great Britain and France and Russia occupying common grounds with Germany and Austria co-operating. Italy remaining in a somewhat neutral attitude. As in the Moroccan affair, the indications are that coalition or an international congress will seek to ar-

LANDSLIDE AT PRINCE RUPERT

Vancouver, Oct. 5.—A great landslide occurred last Thursday at Prince Rupert, half a mile west of the town. A creek with high precipitous banks had become choked with floating debris, forming a great reservoir. Under the great pressure the clay banks gave way and a huge body of land and water slipped away towards the sea. Trees as large as four feet thick were carried down. A section of the government telegraph line was carried out and the residence of Jas. McDonald, G.T.P. contractor, was swept into the sea.

Grand Trunk R'y Report

Shows Considerable Fall-
ing Off In Half Year's
Earnings

London, Oct. 5.—The Grand Trunk Railway half-yearly report shows that while the weekly returns showed a falling off of £553,600 in gross earnings, an actual decline of £262,000; the total reduction in expenditure was £349,500, the main saving occurring in expenditure on maintenance of way and equipment, viz., £306,800. The ratio of working charges, amounting to £2,096,053 to earnings fell from 72.3 to 71.8 per cent. Appropriations for pensions were £7,150 instead of £49,000. The total train mileage was 9,460,729, or £621,000 decrease. The gross receipts were £2,919,192, and the total net revenue receipts were £955,571, price 1/2, or £621,000 decrease. The deficiency in the Canada Atlantic division was £61,391. After meeting all deficiency in the Detroit, Grand Haven and Milwaukee of \$46,325, the total of £107,716 was left for dividends.

ANOTHER SMASH ON THE G.T.P.

Saskatoon, Oct. 4.—Another bad smash occurred on the G.T.P. yesterday afternoon and as a result an engineer named Martin, his dead at Watrous and Conductor Cory and brakeman Visbeck are now in St. Paul hospital, badly injured.

The accident occurred at Xena, first siding west of Watrous. An extra freight was making up lost time, having been badly delayed by a heavy rain of construction trains, when, without warning the engine and several coaches jumped the rails.

Martin was taken out from the wreck in a dying condition, leg and arm being severed, while the conductor and brakeman were also injured. The injured man was taken to Watrous, where Martin expired. It is supposed an open switch caused the trouble.

Miss Jamison, formerly of the Central India Missions of the Presbyterian Church in Canada, is to be present and address the ladies at their annual Thanksgiving meeting in the lecture room of Knox Church on Thursday at 3.30 p. m. The ladies of the auxiliary of Knox Church cordially invite the ladies of sister churches to be present and enjoy Miss Jamison's address.

Murderous Assault

Thomas Burns, Aged 78, Attacked
With Axe Last Night Is At
Death's Door

Assailants Arrest Anticipated

Last night one of the most atrocious crimes that has ever taken place in this city, and which will in all probability end fatally, was perpetrated. About 11.30 Constable McGeach, who was on duty, was called to a shack two doors from the St. Louis Hotel. When he arrived there he found that a murderous attack had been made on an old man named Thomas Burns. Two men living close to the shack had been attracted by the groans of the injured man. Constable McGeach at once sent for the chief of police and Constable Sharkey was also quickly on the spot. The old man was carried by the two constables to the public hospital, which is only a short distance away from the scene of the tragedy, and when the chief of police arrived on the scene he was being attended by the doctor.

The injured man was in a semi-conscious state and was able to make a statement, which, however, the police are not in a position to reveal at present. He had been assaulted in a most brutal manner. There were several dangerous wounds on the skull, apparently made with a blunt instrument. The left eye was completely gone, and the face had been beaten practically to a jelly. The chief of police stated that he had never seen a case of such savage maltreatment.

A search in the neighborhood of the shack, which is a single-roomed building, where the old man lived alone, resulted in the finding of an axe both the head and handle of which were covered with blood. On the floor of the shack was scattered about three quarts of congealed blood. Investigation also revealed the fact that the door had been forced, the marks of a blunt instrument on the door and on the floor bearing testimony to the fact. As the old man was undressed when found the theory is that on hearing the door being forced he got up and a struggle took place near the door. The old man's hands were badly torn and skinned.

It seems that Burns, who has been in Strathcona for about a year and is spoken of as a highly respectable man, has friends in North Dakota. The police are busy with these investigations, and it is expected that an arrest will be made. Burns is believed to have been the motive for the crime, and the police are in possession of information on this subject which may prove useful, but which they decline to make public at present.

After making his statement to the police, Burns sank rapidly, and is now unconscious and in a most critical state. His age—78—practically precludes any chance of his ultimate recovery.

For Four Years More

One-Armed Burglar Will
Reside In Edmonton
Penitentiary

Regina, Oct. 4.—A one armed man answering the name of Clarke was this afternoon sent to Edmonton penitentiary for four years for having stolen from Miss McKee's room a gold watch, chain and brooch.

The crime was evidently committed yesterday afternoon, for the jewelry was first missed at two o'clock yesterday day. Clarke entered the court house and climbed to the third floor, where Miss McKee lived. He entered her room and took the jewelry therefrom. The case was proved this afternoon before the magistrate, but Clarke, in passing sentence, stated that it was a most unusual thing for such a thing to take place within the very walls where four judges of the supreme court were all dispensing justice in the name of His Majesty. To leave men like this at large would result in the making of every man's home his castle and he would administer a heavy penalty. The crime warranted a fourteen year sentence, as the code allows, but taking into consideration the fact that so far as the court knew, it was the first offence he committed (Clarke to four years at Edmonton).

Thousands of People Perish

In Terrible Floods Which
Occurred At Hyderabad

Bombay, Oct. 5.—At Dewair over a thousand persons perished in the floods caused by the recent extraordinary rains. It is feared that the buried bodies of the victims will cause a pestilence.

The disaster at Hyderabad was one of the most sudden and most appalling in the history of India. It is calculated that 35,000 cubic feet of water struck the city every second the rush of the flood lasted. A dense mass of houses was swept away. One-fourth of the city, where a hundred thousand persons lived, is now a vast quagmire of black mud, from which arises an appalling stench. In the neighboring village of Ghaniguda a thousand houses were destroyed.

There were many heroic rescues by both whites and natives during the catastrophe. Searching for the dead is now actively going on. The work is now being clothed soaked with disinfectants and their mouths and noses are covered because of the bad odors. Efforts are being used to demolish dangerously shattered buildings. The estimates of the number of dead vary. One places it at 10,000.

HOLD-UP AT ST. CATHARINES

St. Catharines, Ont., Oct. 5.—Two hold-ups occurred here at all late hours on Saturday night. Leonard Vanning an Englishman, living on Welland Avenue, went out to make some purchases when he was assaulted by three men. Vanning had only a small amount of money on his person. He gave the names of his assailants to the police and they are now in custody. The other case took place in the suburbs of the city, where one man attempted to hold up a farmer, and his wife on their way home from the city. The farmer jumped from his rig and gave his assailant a severe beating. The highwayman disappeared in the darkness.

Finnish Morals 'Are Lacking

Society Headquarters At
Port Arthur A Den of
Moral Corruption

Port Arthur, Ont., Oct. 5.—A sensation has been caused here by the publication of an open letter to the press by Rev. K. S. Toivonen, pastor of the Swedish National church, declaring that a Finnish society of the city, numbering about two hundred people, under the guise of 'Sociedad', is practicing free love to an extent, and is 'purely unchristian' and 'against their fellow countrymen.' He of the pastor, other outrages as described the Finnish labor hall, their headquarters, as a stinking place of moral corruption. Many men and women, he says, are living together and bringing children into the world without any bond whatever beyond their own free will.

ENFORCE LAW IN YUKON.

Ottawa, Oct. 5.—A deputation consisting of the Bishop of Ottawa, Rev. A. E. O'Meara, Conroy, Yukon, and Matthew Wilson, K.C., Chatham, Ont., representing the standing committee on moral and social reform of Church of England, and Rev. Dr. Armstrong, Rev. J. L. Turnbull and Rev. Dr. Bain, say of Ottawa, representing the board of moral and social reform of the Presbyterian church, waited upon Sir Wilfrid Laurier Sunday afternoon, regarding Yukon criminal law in Canada in relation to the business of prostitution. Col. White, controller of the Yukon, was also present.

Mr. Wilson acted as spokesman of the deputation and on behalf of the general syndicate of Canada, laid before the prime minister a report of a special committee appointed to investigate the matter, which had been adopted by the synod. The deputation requested that 'immediate' instructions be given for the full enforcement of the law.

In reply, the prime minister read to the deputation his letter of May 22, addressed to Rev. Dr. Shearer, containing extracts from letters from the commissioners of the Yukon. The prime minister then proceeded to read his understanding of effect of contents of letter to be written by himself as being that commission now has full instructions that 'every infraction of the law regarding immorality and suppression of vice, including infractions of the liquor ordinance, must be prosecuted with the utmost vigor' and that such instructions were intended to be laid, not merely to enforcement of local ordinances of the Yukon, but also to that of the criminal law of Canada.

The prime minister added that he would show the statements of the commissioners to the attorneys laid before him by the deputation.

Joe Martin Gives Views

He Says That Sir Wilfrid
Has Got No Cinch

Vancouver, Oct. 9.—I would like to see the provinces of British Columbia elect six Conservatives and one independent to the Dominion House at the coming elections. The Conservatives could not in any way harm the Liberals have been during their twelve years of power and being newly elected they would probably feel required to live up to a certain extent to their promises.

There is much comment about the Laurier government having a sure thing at the polls, but it must be remembered that the Conservatives were thought to have an equally sure thing in 1896 when they were defeated by the present government. Since the last election the Liberals have lost New Brunswick, Ontario and British Columbia, and the scandals, not only alleged but proved against the government, have opened the eyes of the people and shown them the enormity of a system which ministers of the crown can enter parliament with little means and come out millionaires.

This election comment was made by Mr. Joseph Martin last night during the course of an address to his supporters in his committee rooms on Cordova street last night.

Mr. Martin referred to the remark that had been made about his being a 'disturber of political opinions,' and declared that he was proud of that name, and was certainly prepared to disturb things if he got down to Ottawa.

Mr. Melville said Mr. Martin had attempted to elucidate his platform by the term 'judicious subsidies,' which meant special grants to individuals. 'We should have a letter from Sir Wilfrid Laurier,' declared the speaker, 'and loud laughter,' telling us that Mr. Melville is eating with authority in making his promises, because if we don't we shall scarcely be able to place any reliance in them.

A SWEEPING CHALLENGE.

Jim White, the light-weight catch-as-catch-can wrestler, who has been located in Edmonton for the past week trying to get a match, and who inserted a challenge in our last issue, now announces that he is open to meet any three local men in Strathcona. He will agree to throw the three within an hour, one fall each, and if he fails will forfeit \$25 to the man who holds out the limit. Any three men wishing to accept this challenge may sign up at this office.

The Mayor and Aldermen of the City of Strathcona extend a cordial invitation to the citizens of Strathcona and Edmonton to attend a reception to the Senate and members of the first convocation of the University of Alberta, to be held in the Oddfellows' Hall, Strathcona, on the evening of October 13th, 1908, at 8.30 p. m.

Bulgaria And Independence

(Continued from p. 1.)

While some working basis as to Bulgaria, but meaning the intrigue among the powers for influence over Bulgaria and other portions of the near East is likely to go on unabated and to be an important factor in the new grouping of powers of Europe Bulgaria has been a tributary state of Turkey since 1878. The old Bulgarian Kingdom was overthrown at the end of the fourteenth century by the Turks, who held the country until the treaty of Berlin made it a buffer state between Europe and the realm of the Sultan, and at the same time placed it under the suzerainty of the Sultan of Turkey. Prince Ferdinand has long waited to proclaim the independence of Bulgaria with him self as king. He made a tour of Europe in 1905 and consulted with the various governments with this in view, but he was everywhere discouraged. He is the youngest son of the late Prince Augustus of Saxe-Coburg and Gotha, and was born in 1861. He was elected Prince of Bulgaria in 1887 in succession of Prince Alexander.

PROSPEROUS UNDER LAURIER

To Mr. E. J. Elliott, a politician at Edmonton, the Laurier Government gave a timber limit covering 24 square miles for \$7,500.

Mr. Elliott offered it for sale on these terms:

"The limit occupies a most favorable location at the junction of the two rivers with the Grand Trunk Pacific ensuring splendid facilities for the material cut and for the delivery of logs to the mill. Price of above limit, \$72,500."

Actual value of the property, \$72,500; share for the Public Treasury, \$7,500; share for the politician, \$65,000.

A. W. Fraser, who is the Government candidate in Ottawa, got the Cedar Lake limit for \$500.

He passed the prospectus, which says:

"The timber is of good quality and fairly clean, more so than in the Riverton and Red Deer districts. The price for this block is \$50,000."

Market value, \$50,000; share for the Treasury, \$5,000; share for the politician, \$45,000.

The Hon. Burrows secured the Moose Lake limit for \$7,000, and announced it for sale again in these terms:

"The estimate of this limit is between 250,000,000 and 300,000,000 feet, and the price asked for the same is \$2 a thousand, to be determined by arbitration. Terms 50 per cent. cash and the balance to be arranged."

Market value \$200 a thousand on 250,000,000 feet—\$500,000; share for the Treasury, \$50,000; share for the politician, \$450,000.

By Mr. Burrows the Prince Albert limit was obtained for \$6,000. He sold it to lumbermen who needed it for \$8,000.

Value of the property, \$6,000; share for the Public Treasury, \$600; share for politician, \$5,400.

A. W. Fraser was given his last Western limit for \$1,600; he sold it, according to his testimony in court, for \$100,000.

Value of the property, \$100,000; share for the country, \$1,600; share for the politician, \$98,400.

On these transactions the revenue from the sale of the property of the State is divided as follows:

	For the Treasury	For the Politician
Elliott's limit	\$7,500	\$64,500
Fraser's first limit	500	495,500
Burrows' first limit	5,000	495,000
Burrows' second limit	6,000	74,000
Fraser's second limit	1,600	98,400
Total	\$22,600	\$1,229,400

And we are all asked to vote for another five years of this sort of thing.

Go to the blood, if you are to drive rheumatism. A Wisconsin physician, Dr. Shoop, does this with his Rheumatic Remedy—and with seeming success. Ruben's, says the doctor, never did cure rheumatism. It is more than skin deep. It is constitutional always. Because of this principle, Dr. Shoop's Rheumatic Remedy is perhaps the most popular in existence. It goes by word of mouth from one to another, everywhere. Grateful patients gladly reveal results. It is an act of humanity to tell the sick of a way to health. Tell some sick one. Sold by all dealers.

Political ardor is in the air and two of our best citizens made the post office their cockpit yesterday afternoon. It is untrue, however, that the police were called in. It is said that there were more political facts given to the world at this interchange of opinions than in half a dozen campaign meetings. Didn't the crowd enjoy it. Joe Gane and Battling Nelson was nothing to it.

How many have the opportunity of a good education, and did not obtain it? Why? They could hardly tell you themselves, their parents would probably say laziness, stupidity, want of brains and although they cannot ascribe a better reason they feel the injustice of the statement, yet in 99 cases out of a hundred the eyes can be positively proved at fault. If in doubt, consult Dr. Harvey, the Eye Specialist, Thursday Oct. 24 is correct date.

Meets J. L. Porte, of Strathcona, and T. Daly, of Edmonton, who were in charge of the "New City" exhibit at the Toronto Exhibition, arrived back in Strathcona last evening. Their report was very satisfactory. With seven exhibits six prizes were taken, four firsts and two seconds, and thousands of visitors showed great interest in the samples of the products of this district.

Stomach troubles would more quickly disappear if the idea of treating aise, rather than the effect, would come into practice. A tiny, inside of an insect, says Dr. Shoop, governs and gives strength to the stomach. A leech also goes to the heart, and out to the kidneys. When these "inside nerves" fail, then the organs must fail. Dr. Shoop's Restorative is directed specifically to these fail-nerves. Within 24 hours after starting the Restorative treatment patients say they relieve a pain. \$1.49 by all dealers.

The Canadian Northern Railway have been fortunate enough to make arrangements with Railway lines in the United States so that they can return harvest laborers to points on the Grand Trunk Railway system in Canada practically the same places as would be in effect returning via the Canadian Pacific Railway. They are open to issue those reduced rate tickets to laborers who came up on the harvest excursions via the Canadian Pacific Railway as well as those who came up via Chicago and their own line. This, no doubt, will be appreciated by a great many of the harvest laborers who came up direct and are desirous of returning via Chicago. Any agent of the Canadian Northern Railway is in a position to give laborers information under what conditions cheap rates can be obtained.

UNDERTAKERS

MEET TO-MORROW

The second annual convention of the Alberta Funeral directors and Embalmers' Association opens in the opera house to-morrow morning. A number of the members are already in the city and many more will arrive this afternoon. Over seventy rooms at the hotels were wired for yesterday. The session will be called to order by the president, A. M. Shaw, of Calgary, at 9 o'clock to-morrow. An invocation and address by the Rev. H. E. Gordon, pastor of the Methodist church, will be followed by a address of welcome which will be a vocal selection by the Methodist choir. Mayor Duggan will read an address to the president, H. H. Hainstock, of Olds. The convention will then settle down to business, and the following programme will occupy the rest of the day:

Roll Call.
Appointment of special committees.
Filing of applications for membership.
Collection of dues.
Meeting of membership committee.
AFTERNOON SESSION.
Call to order by President.
President's address.
Report of membership committee.
Introduction of new members by B. C. Moore, Lethbridge.
Minutes of last convention.
Outlining course of lectures by Dr. J. C. Wainwright.
"Forty-five years with the undertaker," by Rev. Dr. McDonald.
EVENING SESSION.
Announcements.
"The Funeral director and the law," by P. C. Jamison.
Informal talk by Dr. J. C. Wainwright.
